April 2020

Dear Parents, Carers and Students,

#### SUMMER 1 – LEARNING PLANS AND RESOURCES

As described in my letter emailed on Monday 20th April, please find enclosed in this envelope learning plans and resources to cover the first half of the summer term. These packs are being sent to every student. We do not know yet when and how schools will be reopening but we think it is useful to have a plan for home learning to cover the next half term. We will continue to use Teams on Office 365 as the main tool for learning however, we know that some students are having difficulty accessing these resources and some resources are more easily used on paper than on screen.

Contained in the pack are learning plans for every subject. These learning plans provide an overview of and structure for the learning for each subject up until the end of May. They state what assignments need to be completed every week to support this learning. Alongside these learning plans there are paper-based resources to support this learning, these resources are closely linked to the work on Teams.

If your son has an identified special educational need there should be an additional letter in this pack from Mr Glover, Head of Additional Needs, which contains some guidance and his contact details.

Before the Easter break you should have had a couple of telephone calls from staff. The purpose of these calls is to maintain the home school relationship, to check on student and family well-being and to support student home learning. We plan to continue these checking in and support telephone calls through the next half term. As I hope has been discussed in these calls, we suggest that 3 hours of quality work a day is a realistic expectation in relation to the completion of specific work set by teachers. Outside of these hours, boys should be encouraged to exercise, help with tasks around the home and to read.

My very best wishes to you. Please do not hesitate to contact us if you think we can be of support.

Yours faithfully,

Sam White
