*** How do I know what to work/improve on?**

In Geography all students at the end of Year 10 completed an exam reflection/analysis sheet. This should indicate the topic areas you need to go over (i.e igneous rock, headland formation, tropical rainforest nutrient cycle ..). It also identifies performance in Assessment Objectives (i.e. include more evidence from the source in extended responses - AO4).

*** How can I practice the exam?**

- Work through past papers and mark schemes
- Examiners reports give model student answers.
- Copies of past papers for Unit 1 are saved on Teams.
